

Fifteenth Annual Meeting  
of  
**THE GILBERT ICHTHYOLOGICAL SOCIETY**  
<http://artedi.fish.washington.edu/GIS/home.html>

---

**Friday, 19 September**

Arrival, Check-in at HMSC dorms, wurst 'n chips 'n beverages available or dinner on your own  
2000 (8PM): Business meeting at HMSC dorm dining hall (with beverages)

**Saturday, 20 September HMSC Library meeting room**

Breakfast on your own

0830-1000: Paper session I  
1000-1030: Coffee break  
1030-1200: Paper session II  
1200-1300: Lunch  
1300-1500: Paper session III  
1500-1530: Coffee break  
1530-1630: Paper session IV

**Banquet, Rogue Brewers on the Bay, South Beach near HMSC**

1800: Social hour

1900: Dinner

2000: Various speakers - A natural history of Carl Bond and tasteful revelry

**Sunday, 21 September**

Breakfast on your own

0800-1000: Checkout

## AGENDA

- 8:30 K. Gus Thiesfeld: Gelativore, Gelativore, Gelativore... Can we say Gelativore?
- 8:45 David Ebert: Reproductive biology and habitat utilization of skates along the eastern Bering Sea continental slope
- 9:00 Katie Dodd: Taxonomy and zoogeography of the deep-sea fish genus *Anoplogaster* Gunther (Beryciformes: Anoplogasteridae)
- 9:15 Catherine Mecklenburg: C. W. Mecklenburg, W. J. Poly & W. N. Eschmeyer, Annotated checklist of fishes: a new series from the California Academy of Sciences
- 9:30 Wolfe Wagman, M. S. Blouin, and D. F. Markle: Species Identification of Klamath Basin suckers (Pisces: Catostomidae) and an assessment of hybridization using Anonymous Nuclear Loci
- 9:45 Bobette Dickerson, P. Benzen, M. F. Willson, T. P. Quinn: Is bigger really better; reproductive success in wild male pink salmon.
- Break**
- 10:30 Lyle Britt: "Fish vision stuff"
- 10:45 Duane Stevenson, J W. Orr, G R. Hoff, and J. D. McEachran, A new species of *Bathyraja* (Rajidae) from the Aleutian Islands
- 11:00 Keri York: Keri York & Brian Tissot, Resource utilization of benthic rockfish (genus *Sebastes*) on the Oregon continental shelf.
- 11:15 Ned Laman: Patterns of larval fish abundance and distribution off the Central California coast during the 1997-99 El Nino Southern Oscillation.
- 11:30 Andrew Kinziger, R M. Wood and D A. Neely: Molecular Systematics and Classification of *Cottus* and the Baikalian Cottoids (Scorpaeniformes).
- 11:45 Mark Jennings: Edwin Chapin Starks and the 1928 St. Francis Dam Disaster: a tale of the fish coroner.
- Lunch**
- 13:30 Florence A. McAlary and W N. McFarland: Twilight behavior of the senorita wrasse (*Oxyjulis californica*).
- 13:45 John Stadler: OWWW!.....That Hurts! Why Driving Piles is Bad for Fishes
- 14:00 Steven J. Parker and W. Waldo Wakefield: Life in the rear view mirror: What happens behind a Remotely Operated Vehicle (ROV)?
- 14:15 Mike Canino: New findings on the molecular systematics and biogeographic origins of endemic Pacific gadid fishes
- 14:30 Emily Thompson: Spectral Photosensitivity of Puget Sound Intertidal Fishes
- 14:45 Ian A. Fleming: Mate competition and selection within an alternative tactic: mature Atlantic salmon parr
- Break**
- 15:30 Jay Orr, D E. Stevenson, G R. Hoff, and J D. McEachran: Review of skates of the subgenus *Arctoraja* Ishiyama (*Bathyraja*: Rajidae), including data on a putative new species from the Aleutian Islands.
- 15:45 Ted Hart, J Clemons, W Wakefield, S Heppell, M Yoklavich, B Tissot: Diel activity patterns in demersal fishes on Heceta Bank, Oregon
- 16:00 Doug Markle: Egg rolling as an antipredator behavior in adult Pacific lamprey
- 16:15 Jodi Pirtle, J. Stone and Collier: Spawning behavior and habitat selection of Pacific and western brook lamprey
