 - "Word of greeting and appreciation" (Robert's Rules, 1967)
14. Appointment of Vice President
15. Closing Announcements
16. Call for Adjournment

Gilbert Ichthyology Society: Presentation Schedule

| Time | Presenter | Title |
|--------------|------------------|--|
| 9:00 | Morgan S. Busby | Spatial and Temporal Patterns in Summer Ichthyoplankton Assemblages on the Eastern Bering Sea Shelf (1996-2007) |
| 9:15 | Ted Pietsch | Fishes of the Salish Sea: Puge Sound and the Straits of Georgia and Juan de Fuca |
| 9:30 | Lisa DeForest | The ichthyoplankton community off Southeast Alaska: a glimpse from GOAIERP |
| 9:45 | Christina Murphy | Gambusia in the Iberian Panninsula |
| 10:00 | Break | |
| 10:15 | Whit Bronaugh | Preliminary data on the systematics of the Cape Kurper, <i>Sandelia capensis</i> (Perciformes: Anabantidae) from the Cape Region of South Africa |
| 10:30 | Michael D. Burns | Reproductive morphology: A viable phylogenetic character set for hermaphroditic gobies? |
| 10:45 | Rachel Arnold | Evolutionary relationships of the enigmatic anglerfishes (Order Lophiiformes): Preliminary evidence from nuclear DNA |
| 11:00 | Brian Sidlauskas | Macroevolutionary implications of the first molecular phylogeny for anostomoid fishes |
| 11:15 | Break | |
| 11:30 | Erin Peterson | Stinking Lake Spring Speckled Dace and the Biogeography of Speckled Dace in Oregon |
| 11:45 | Kendra Hoekzema | Phylogeography and morphometrics of specked dace in Oregon's Great Basin |
| 12:00 | Dakota Rowsey | Species Boundaries of Brushtail Possums in the Queensland Wet Tropics |
| 12:15 | Adam Martin | Patterns of genetic differentiation in the Pygmy Antwren (<i>Myrmotherula brachyura</i>) of Amazonia |
| 12:30 | Lunch | |

| | | |
|-------|---------------|---|
| 13:30 | David Noakes | The importance of egg size for salmonid fishes |
| 13:45 | Eric Billman | Behavioral phenotypes and life history tactics in juvenile Chinook Salmon |
| 14:00 | Bianca Streif | <i>Entosphenus tridentatus</i> : Conservation status update |
| 14:15 | Nathan Putman | Examining geomagnetic imprinting as a homing mechanism in salmon |

14:30 Break

| | | |
|-------|----------------------|---|
| 14:45 | Ben Frable | A cryptic species of <i>Sebastes</i> from the Northeastern Pacific....revisited |
| 15:00 | Jennifer Gardner | Solving the mystery of snailfish eggs using genetics |
| 15:15 | Duane Stevenson | A revision of manefishes (Caristiidae) |
| 15:30 | Phillip Harris | Comparative phylogeography of <i>Etheostoma boschungii</i> and <i>E. tuscumbia</i> : assessing habitat preference and dispersal ability |
| 15:45 | Katherine Maslenikov | Tiny bits- accessioning two million otoliths into the University of Washington Fish Collection |

19:00 -20:00 Luiz Rocha Speciation in Coral Reef Fishes
